

Recipe for Success

Affiliate Partners

Our Seed-to-Plate Nutrition Education™ is proven effective at changing children's attitudes about healthy food and their eating habits.

3 Easy Steps

Implement our award-winning programs using your own staff with materials and support from the Recipe for Success Foundation Home Team

Available to schools nationwide

Sign Up

1 Your school or community center administrator completes and submits application paperwork.

2 Your administrator reviews requirements with our S2P Program Coordinator, then signs a memorandum of understanding and pays fee.

3 Administrator appoints a minimum of two S2P Instructor candidates for training and completes garden and culinary classroom preparation.

Train & Certify

1 S2P Instructor candidates submit application test and score a minimum of 85% to enter training.

2 At their own pace, S2P Instructor candidates process through online training course, consisting of 30 class modules and 4 progressive tests.

3 Candidates scoring 85% or better on all tests, earn S2P Instructor certification and are ready to deliver Seed-to-Plate Nutrition Education™ curriculum to your kids.

Deliver & Report

1 The full repertoire of Seed-to-Plate Nutrition Education™ curriculum and reproducible collaterals are made available online to all certified S2P Instructors.

2 Select from themed units or use our library to curate your integrated garden and cooking curriculum with ongoing pro support from the Home Team and the S2P community network.

3 S2P Instructors share their program results and enjoy a robust network of support from Recipe for Success Home Team, including regular webinars, expert and peer forums.

FREQUENTLY ASKED QUESTIONS

COSTS

What are the fees?

Contact Seed-to-Plate Nutrition Education™ Program Coordinator, Andi Nelson for current pricing.

What should I budget to support class delivery?

Annual consumable costs vary by location and delivery style, but a good rule of thumb is \$15 per participating student.

How much does it cost for a culinary classroom and garden?

We will provide you with a list of recommended equipment, or we can source and ship it to you.

Culinary Classroom: Our Starter Culinary Kit is \$2,250, with optional add-ons, like a portable cooking cart and oven, that can raise the cost to \$4,500.

Garden Classroom: building material costs run about \$500 per garden bed (using volunteer labor) plus about \$400 for garden equipment and hand tools. Additional costs might include a compost area, trees, art element, signage, shed, etc.

OPERATIONS:

What sorts of requirements are outlined in the Memorandum of Understanding?

In order to maintain the integrity of our tested programming, we require that all Partners agree to:

- Commit to a minimum of 3 years of programming
- Maintain at least 2 trained and certified instructors throughout the life of the program
- Deliver a minimum of 20 classes to each participating student-1/2 in the garden and 1/2 in the kitchen
- Respect the integrity of Recipe for Success Foundation content by not using it outside of recommended guidelines
- Honor copyrighted and trademarked materials
- Limit program delivery to certified S2P Instructors

Who should we train?

Any school/site community member that will be committed to starting, leading, and sustaining the Seed-to-Plate Nutrition Education™ program is eligible to complete the S2P Instructor Training Certification.

Examples of great candidates include teachers, school nurses and coaches, parents and community members who enjoy cooking or gardening or even professional chefs or gardeners.

How many instructors should we train?

• We require 2 instructors, which offers an in-house support network. Many schools find having a trained instructor for each grade helps them integrate the program and increase student impact.

SUPPORT:

What class materials are included?

- Over 150 garden and culinary lessons and recipes, which are cross referenced by seasonal ingredients, grade-level, TEKS objectives and Common Core Alignment
- Worksheets to extend lessons into math, science, history, language arts, geography and social studies
- Themed units of 20 classes for food literacy implementation during the school day, after school or summer camp
- How-to video library from our Recipe for Success Home Team instructors
- Monthly Newsletter
- Professional Development Webinars
- Recipe for Success branded materials for national Contest participation

What does the training entail?

- S2P Instructor Candidates must pass a Training Enrollment Pre-Test with a minimum score of 85% in order to be accepted. Training may begin anytime after acceptance is confirmed by S2P Home Team.
- The self-paced 30 module training is delivered via a web-based e-learning platform. It takes approximately 10-30 hours to complete, depending on the candidate's pre-existing knowledge and study style. The training is divided into Four Goal Sets separated by progressive tests, each of which must be passed with a minimum score of 85%.
- Our training covers childhood obesity trends and data, Recipe for Success Foundation's history, tactics, tested program delivery methods, teaching tools, integrated class delivery and planning guides, along with in-depth culinary and gardening insights.

Additional materials available at minimal cost from Recipe for Success to enhance your program:

- Seed-to-Plate Nutrition Education™ banner
- Aprons & gardening smocks
- Tasty Tongue, Plant Parts, Food Adventure Oath, Marco Polo Map, and SuperFoods posters
- Kitchen & Garden Classroom Equipment
